RED CROSS MEETING

Coleman branch of the Canadian Red Cross will begin its fall and winter meetings on Tuesday, Sept. 25. All persons interested are asked to be present at the council chamber at 8 p.m.

Council To Promote Interest In Air Field

Work on West Coleman Sidewalk Has Started; Collins & Collins, of Calgary, May Be Engaged as Auditors.

Regular meeting of the council was held on Monday evening in the council chamber. Present Mayor Aboussefy, Councillors Cox, Dutil, Ramsay and Wilson.

Fred Trska was present. He stated that while working at Fernie many of his personal papers were destroyed by fire. As he is only a few months away from attaining his 70th birthday, at which time he plans on seeking the Old Age pension, he asked council's aid in securing for him proof of his age. He stated that it was his belief that records of his birth in Europe would have been destroyed. Asked if he had his Canadian naturalization papers, he replied in the affirmative. The subject's age is usually on such papers and council will have Mr. Joe Malanchuk aid Mr. Trska in determining proof of age.

Works & Property committee reported that work had now commenced on the West Coleman sidewalk. It also reported that it would be possibly three weeks before work could start on the Empire hotel sidewalk. The traffic signs to better direct traffic through town are being prepared, as is also the "No Parking" sign which will be placed on the brow of the hill at Fourth street alongside St. Alban's church.

Collins & Collins, auditors, Calgary, have been approached to act as auditors for the town. They have requested that two copies of the last two financial statements be submitted to them to determine the work involved.

Council was in receipt of a letter from the Calgary Board of Trade stating that three companies have secured their commercial air licenses and plan on servicing an area having a 500 miles range from Calgary. It was agreed by council to encourage interest in the local air field and to give the Calgary Board of Trade every assistance.

Annual convention of Alberta Municipalities will be held at Calgary on November 1 and 2. Mayor Aboussefy was in favor of local representation and delegates will be chosen at the next regular meeting.

The doors leading into the garage at the town office will be given a coat of varnish.

Norman Plante made application for light and water services to his Fourth street home. After some discussion council recommended to Coleman Light & Water Co. that these services be granted.

COLEMAN GIRL ON VOLLEYBALL TITLISTS

LAW Thelma Vincent, of Coleman, was a member of the team winning the RCAF Women's Division volleyball championship overseas recently. LAW Vincent's team from the RCAF Linton, Eng., station defeated London Headquarters 15-11, 1-15 and 15-12.

Thelma played her first game of volleyball only a few weeks ago. In winning the championship each of the players was presented with a gold medal.

She does not plan on being home this Christmas due to being in an administration office in London and whose job it is to help keep the flow of Canadians to Canada going smoothly.

Organize For National Clothing Drive

Committees Chosen at Tuesday's Meeting; Entire Town to be Canvassed House to House.

On Tuesday evening a meeting of Coleman's National Clothing Drive was held in the council chamber with chairman G. A. Kettlys presiding.

Committees appointed include: Planning and Publicity: A. Balloch, chairman; G. Derbyshire. Collection: Councillor A. Wilson, chairman; Capt. Smith, Mrs. W. L. Rippon, Mike Opulski and Mr. Billey.

Deputy: Capt. Smith, Rev. W. E. Brown, Rev. L. Sullivan, Rev. G. A. Kettlys and Mrs. T. B. Smith.

Executive: Rev. G. A. Kettlys, United Church, chairman; M. Opulski, vice-chairman; Miss M. McIntyre, Catholic Youth, secretary; Mrs. Brown, Anglican Church; Rev. Father Sullivan, Catholic Church; Captain Smith, Salvation Army; Mr. Purvis, International Coal & Coke Co.; S. Short, Masons; Geo. Derbyshire, Canadian Legion; J. Ulyersky, Russian Canadians; B. Binda, Polish Society; Mike Korman, 1st Cath. Slovak Union; Mr. Billey, Can. Ukrainian Society; W. W. Cooke and W. Pettifor, Lions; A. Balloch, Press; A. Wilson, Town Council; Mrs. T. B. Smith, Red Cross; Mrs. H. Turner, Ladies' Auxiliary of the Canadian Legion.

It is proposed to zone the town similar to that of the Victory Loan. Hand bills will be distributed in each zone, 24 hours before collectors make their drive, asking housewives to have their bundles tied and ready for delivery. Trucks will take the bundles to a depot yet to be chosen, where sorters will be waiting to sort and pack the clothing.

An executive committee meeting is scheduled for Thursday, Sept. 27, at which time reports of the sub-committees will be submitted.

Coleman Soldier And His English Bride

Pte. Jasper Jones and his English bride, Miss Phyllis Sloman, of Basingstoke, Hants, England, whose marriage took place at Basingstoke on Saturday, July 21, of this year.

He enlisted in 1940 with the

Loyal Edmonton Regiment and in 1941 went overseas. He has been in action in France right through to Germany. He does not anticipate being returned home until Christmas or later.

Six Coleman Men Arrive From Overseas; Five Expected To Arrive In Calgary At Noon Friday

Six additional soldiers and air-men arrived home from overseas during the past week. Five of the six are due to arrive in Calgary to-morrow (Friday) noon, having arrived in Canada on Tuesday. Two of the men whose names are G. Venzi and M. W. Donaldson and who give their addresses as Coleman cannot be placed as no record of them can be found at the Legion club.

CFN. MELVILLE CORNETT who enlisted on July 1, 1941, had his training in eastern Canada and went overseas on Christmas Day, 1944. He has been in Holland, Belgium and Germany and was a

member of the occupational forces in Germany for two months. His wife left today to meet him at Calgary on his arrival.

SERGEANT AMOS CELLI

Last Thursday morning Sergeant Amos Celli arrived home after several years overseas. His name had failed to be submitted to the Rehabilitation welcoming committee who nevertheless was at the station to welcome other Coleman boys home and Amos was greeted with a handshake by those present.

He enlisted in September, 1939, with the 20th Anti-Tank Battery. While overseas in Britain he met and married an Irish nurse whom (continued on Page 5)

SAPPER BILL HIRST ARRIVED HOME LAST WEEK FROM OVERSEAS

Sapper William "Bill" Hirst arrived home at the week end after several years spent overseas. He enlisted in May, 1941, and went overseas in September, 1941. He saw action right through to Germany. At Calgary he was met by his wife and young son.

Bill's name was not received by the Coleman Reception and Rehabilitation Committee until 24 hours after he had arrived in Calgary due to some mixup in relaying the information to Coleman. However, since his return here his many friends have been extending a hearty welcome.

Snow And Frost Experienced This Week

Gardens Suffer Damage; Ice Formed on Pools of Water.

Pass citizens rose on Monday and Tuesday mornings to snow and heavy frost.

Rain both mornings turned into sleet and then snow and the district was blanketed under a slight snow fall which disappeared once the sun went to work on it.

Pools of water on the roadside were seen to be bound over by ice in the early morning hours. The surrounding hills and mountains still wear their snow blanket.

The gardens which suffered a few weeks ago from a heavy frost have just about taken the count for the season 1945. Only the hardiest of flowers were able to withstand this week's snow and frost.

It was to be noticed some householders took the warning that winter was not far off as they were to be seen carrying soot from furnaces and putting on storm windows.

THANK YOU

We wish to express our sincere thanks to the various organizations and citizens of Coleman for the financial assistance given Jimmy during his hospitalization in Toronto.—Mr. and Mrs. A. Chalmers.

...V...

Collie Died Of Poisoning On Wednesday

Dog owners are advised to keep a more careful watch over their pets for the next few weeks.

On Wednesday afternoon Mrs. Frank Graham fed her dog and then allowed him to roam out-doors. About four o'clock in the afternoon the dog came home and after a short time fell dead. There was no sign of injury on the dog and the only conclusion that was arrived at by Mr. and Mrs. Graham was that it had picked up some quick acting poison.

There is no evidence that anyone had purposely placed poison in a place where it could have been eaten by some unsuspecting dog, but the fact remains that poison is lying somewhere on Fifth street west where dogs can get it.

A year or two ago approximately a dozen dogs were poisoned and a concerted effort was made to find whether the poison was being purposely placed in the path of dogs by a person unknown. However, the search proved fruitless.

Hearing on Light & Water Franchise Set Back Till 1946

Chairman of Public Utility Commissioners Has Full Schedule of Hearings in 1945.

Council at its regular meeting on Monday evening was in receipt of a letter from its Calgary solicitor, Mr. Mackenzie, K.C., stating that the hearing on the Coleman Light & Water franchise which had been expected to be heard by Mr. Blackstock, chairman of the Board of Public Utilities, early this fall in all probability had been set back till "sometime in 1946."

The franchise expired on June 30, 1944, and since that date the Coleman Light & Water Company has been forced to operate the system without a franchise. At a meeting early this year it was agreed to enter into an interim agreement extending from July 1, 1944, till June 30, 1946. Such an agreement must have the approval of the Board of Public Utilities. Mr. Mackenzie has already drafted such an agreement and it is now in the hands of the Coleman Light & Water Co. for its approval or rejection.

RED CROSS NOTES

Canadian Red Cross have arranged with concurrence of government to send and receive one free cable between Canadian civilian internees in Far East and next of kin in Canada. These are to be sent to the Red Cross Enquiry Bureau at Ottawa by air mail for transmission to Manila.

Messages of ten words exclusive of address name sender to be submitted on personal cable forms in duplicate omitting branch certificate and verification.

British next of kin in Canada may be included.

Kindly apply to your nearest Red Cross branch if a cable is to be sent. Personal cable forms will be immediately forwarded for completion by the sender.

MRS. RUTH JACKSON LEAVES FOR THE COAST

A citizen here for many years, Mrs. Ruth Jackson has sold her Second street home and plans shortly to leave with her son for Vancouver, where they will make their future home.

Last week Mrs. Jackson sold her home to Mr. and Mrs. Ross Foster.

...V... Mrs. Penney sr. left at the week end to spend the winter months at Lethbridge.

WORLD HAPPENINGS BRIEFLY TOLD

A new star 10,000 times more brilliant than the sun was reported discovered by Dr. Nils Tanno of Kristiansberg observatory. It has not been named.

Educational tours of Germany in the areas in which they are working now are under way for members of the Canadian Women's Army Corps stationed in Germany.

Appointment of Hon. Legation Poulson as Argentine minister to Canada, announced in Buenos Aires, completes a diplomatic exchange between the two countries.

Russia's far eastern armies seized more than 512,000 Japanese officers and men, including 81 top-ranking general officers, in their 20-day offensive against Japan, Moscow announced.

Ramononwane, an African credited with being 130 years old, is dead. Blind many years, Ramononwane retained a memory which recalled native battles of more than a century ago.

The French foreign office announced that an international conference would be called, probably in November, to determine how the Western Allies will divide reparations from Germany.

All of Europe's inland transport—both rail and water—will be checked by the provisional organization for European inland transport, it was stated at a conference of the organization held in London.

Canadian army public relations said that the army was planning to hand the Netherlands government 1,200 officers and men to train a Dutch force which will take over Netherlands possessions in the Far East.

Ambitious Plans

Japanese Intended To Invade United States From East And West Coasts

The liberated Sultan of Johore told a London Daily Mail reporter in Singapore that the Japanese planned to invade the United States from both the east and west.

The 71-year-old Sultan said former Japanese Premier Gen. Hideki Tojo revealed the invasion plan to him while attempting to impress the Sultan with his plans for greater Asia. "Tojo produced maps and showed me exactly how the Japanese were going to drive through Burma and India and link up with the Germans at Baghdad," the Sultan said.

"He said he had an agreement with Hitler that the Germans and Japanese would share Egypt, North Africa and Morocco."

"Tojo said the Japanese eventually would set sail across the Atlantic to America simultaneously with an armada from the Pacific."

Frozen Shipment

Carload Of Fruits And Vegetables Shipped From B.C. To Toronto

The first carload of frozen products shipped from the fertile Okanagan Valley district of British Columbia, famed for its high quality fruits and vegetables, recently moved to Toronto in one of the latest-type Canadian National Railways refrigerator cars.

Weighing 60,000 pounds, contents of the car were 3,000 cartons of quick-frozen beans, wrapped in wax paper, with a value of \$9,000.

The C.N.R. freight and transportation departments gave special care to the shipment and the beans were frozen at five degrees below zero.

CARE OF PATIENTS

In Canada, it has been established that, of the 12,654 patients who have left sanatoria in 1942, more than 90% have been looked after with public funds.

The Chinese were the first people to discover a practical method of paper making by the weaving of fibres.

LIFE'S LIKE THAT

By Fred Neher

"... Ah! where, may I ask, do you think you're going?"

Ice By Railway

Mountain Ice Is Shipped In Chunks To Vancouver

Natural ice, clear as crystal, has been shipped into Vancouver over the Canadian National Railways all the way from the Rocky Mountains to relieve the ice shortage in that city. The mountain ice is shipped in chunks and is crushed by the National Harbors Board ice plant at the coast city for use in fishing boats.

Each winter, the C.N.R. cuts and stores some twelve thousand tons of ice at Lake Lucerne, in the Rockies, for use in dining and refrigerator cars and passenger day coaches and to meet a seasonal shortage of a fishing company purchased one hundred tons from the railway.

PASTEURIZATION OF MILK

This journal in past years has paid a great deal of attention to the question of pasteurization of milk because if all milk were pasteurized mortality and disability rates would be greatly reduced. Milk, recognized as the finest of foods, should be an essential in the diet of everyone. Henry Wallace, when Vice-President of the United States, said in a famous speech, a few years ago, that every child in America should have a quart of milk a day. Were this objective achieved, the effect on the stature and health of children would be remarkable.

However, Henry Wallace should have used the term "pasteurized milk" instead of just "milk" because milk unpasteurized may convey disease. It is known that milk can carry the germs of tuberculosis, typhoid and paratyphoid fever, undulant fever, diphtheria, scarlet fever and septic sore throat. Besides it has been noticed that when pasteurization is effectively established, infant mortality rates immediately drop.

These facts being known, it is ridiculous as well as tragic that in Canada only one province has a law enforcing province-wide pasteurization of milk. Failure to pasteurize milk results in disease and death. Health authorities have known this for many years and still much milk sold for human consumption is not pasteurized.

It seems that health authorities have not acted because political leaders have been powerless owing to the influence of uninformed voters. Some interested or ignorant groups with voices are always ready to oppose this great life-saving measure and they are sufficient in number to influence political opinion. Until something is done to circumvent this ill-informed and selfish vote, it will be hard to pass legislation in the eight provinces which still lack it.

The answer again lies in education. The speaker, the pamphlet, the poster, press and radio should be enlisted in a great Dominion-wide campaign. Again there is need for the volunteer—the man and woman keen to render service for the welfare of their fellow citizens. This magazine "Health" sounds the clarion cry to action. The time has come to commence a vigorous campaign to the end that all milk sold in Canada for human consumption be pasteurized.

On behalf of the Health League of Canada, "Health" gives notice that from now on there will be no let-up in the campaign. All citizens who love children and who believe in health for the Canadian people are invited to help. Write to the Health League of Canada, 11 Avenue Road, Toronto, or Province of Quebec Division 914 Sun Life Building, Montreal. Give us stories which illustrate the need for pasteurization. Tell us how you can help. Write today.

Spreading Rapidly

Fire Blight Is Affecting Apple Trees In Alberta

Recent surveys made in Alberta by the Dominion Laboratory of Plant Pathology, University of Alberta, have disclosed that the fire blight disease of apple trees is spreading rapidly throughout areas hitherto free from it. For example, fire blight apparently was not present in Edmonton until very recently, but now it may be seen in many parts of the city. Crabapples are particularly susceptible to fire blight. The disease is bacterial in nature and is spread mainly by rain and wind to parts of the same tree or to adjacent trees, says G. B. Sanford, plant pathologist-in-charge, Dominion Laboratory of Plant Pathology, Edmonton, Alta. Once some of the blossoms become infected, it may be spread by pollinating insects from blossom to blossom, tree to tree, and orchard to orchard. The disease was originally introduced in a district on nursery stock.

As the name suggests, fire blight is easily recognizable by the scorched appearance of the leaves of affected branches or shoots. Recently fire blight appears first on the topmost branches, where the leaves, wood, bark of twigs and of larger branches, and also the fruit, may all be diseased. Eventually the entire tree may be killed.

As spraying is not a practical means for controlling fire blight the diseased parts must be cut out immediately they appear. The cut should be made at some distance below the obviously diseased area and the diseased part burned. Also, great care must be taken to keep the pruning tools disinfected by dipping them between each operation in a solution containing one part of formalin to 30 parts of water, or even stronger. When pruning during the dormant season the tools need not be disinfected.

A popular description of fire blight, with suggested methods of control, is given in circular No. 146 available free from the Dominion Department of Agriculture, Ottawa.

Spider Was Wise

By Bennett Cerf In Saturday Review Of Literature

During Mark Twain's early days in the newspaper business in Missouri, relates Irving Hoffman, he received a letter from a subscriber stating that he had found a spider on his paper, and asking if this was an omen of good or bad luck. Twain replied, "Finding a spider in your paper is neither good luck nor bad. The spider was merely looking over our paper to see which merchant was not advertising so that he could go to that store, spin his web across the door and lead a life of undisturbed peace ever afterward."

It is possible to sail up the Amazon river for days without seeing either shore.

THIS CURIOUS WORLD

By William Ferguson

RESCUED FROM "HELL-HOLE"

—Though never reported by the Japanese as a captive, Maj. Gregory Boyington, leading U.S. Marines in the South Pacific, has been found in a prisoner-of-war camp near Yokohama. He was shot down over Rabaul late in 1943 after bagging his 26th Jap plane. "There never has been a blacker hell-hole," said an official report on the camp where Japanese and U.S. marines found 500 Allied prisoners.

Legend Of The Magnet

Principle Was First Discovered Many Centuries Ago

The story is told that many centuries ago, a little shepherd lad named Magnes was herding his sheep on Mount Ida. Suddenly he became aware that his feet and staff were stuck to the ground. Now all of us have been stuck in the mud, but here there was no mud. The boy stood on bare rock. It seems that he had walked onto a deposit of a mineral which acted like a magnet and attracted the nails in his boots and the iron ferris of his staff. This attractive mineral was called magnetite after the shepherd boy. While all magnetite will not act as a magnet and attract iron, nevertheless, all magnetite is attracted to a magnet. In the Royal Ontario Museum there is an exhibit of magnetite suspended over some small compasses, each a magnet, showing how the specimen affects the positions of the compass needles. This has a practical bearing in the field when unwittingly a prospector, or hunter, walks over a body of magnetite-bearing rock. His compass no longer points north and if the sun is not shining he may wander for some time before getting free of the influence of this "attractive" mineral.

HUGE NUGGET

Holtermann's nugget, a mass of gold mixed with rock, and in a reef at Hill End, New South Wales, Australia, in 1872, was valued at \$6,000 but would be worth nearly \$125,000 today. The whole mass of the nugget weighed 7,560 ounces.

The first automobile show was held in 1900 in the United States.

Chicago Mansion

A Relic Of The Palmy Days Long Since Past

The Potter Palmer mansion on Lake Shore drive is to be torn down. Suitably, it makes way for progress. But future generations would better understand the Chicago of the lush times when it was built if a scale model could be preserved in a museum.

For instance, it was not only a home but, as was the custom among the rich people of the period, it was also a social institution, a symbol of its master's wealth and its mistress' social precedence. It had the equipment of a restaurant. A half a hundred guests could be, and often were, served at its dining-room table. Hundreds could and did dance in its ballroom. It had many of the features of a club or of a hotel.

As a sidelight on the help situation in 1882, the year it was built, there was no outside lock on any door, and only the inside doorknobs turned. Even Mr. and Mrs. Palmer had to get in. That was because at any hour, day or night, there was always a butler or a footman attending to answer the bell.—Chicago Daily News.

Rapid And Simple

United Kingdom Firm Using New High-Speed Welding Process

A novel process marking a new departure in high-speed welding has been developed by a United Kingdom firm. Its outstanding advantages are rapidity and simplicity of operation combined with one hundred per cent efficiency. The process constitutes a method of attaching studs or rods to steel structures by means of a gun, which causes the studs into the molten metal formed in the steelwork. The apparatus is fully automatic and the welding operations are eliminated. It also dispenses with seal for watertightness since holes are not required in the plating.—Ottawa Citizen.

GREAT VOICE MISSING

The Toronto Globe and Mail said: There is something strange in the fact that when final peace was announced the voice of Churchill, one of the great figures during the prolonged warfare, was not heard by the world.

Although it is the oldest continent geologically, Australia was the last to be occupied by white men.

SUNDAY SCHOOL LESSON

SEPTEMBER 23

JOSEPH'S TESTIMONY TO GOD'S PROVIDENCE

Memory Selection: On that men would praise the Lord for his loving-kindness, And for his wonderful works to the children of men! Psalm 107:8.

Lesson: Genesis 45.

Devotional Reading: Psalm 91, 1-11.

The Text Explained With Comments The story of Joseph's life is a story of God's providence. It is a story of how God's plan for Joseph's life was fulfilled. The story is a story of how God's plan for Joseph's life was fulfilled. The story is a story of how God's plan for Joseph's life was fulfilled.

It was Joseph's frank and forthright speech which saved the way for complete reconciliation. In utter self-forgetfulness he gave utterance to one of the greatest speeches in all recorded history. As Joseph ends his impassioned plea for Benjamin, the stern ruler breaks down. Joseph is satisfied with the result of his test. His brothers are not the same men-spirited men at whose hands he himself had suffered. The time is ripe for making known to them that he, the great ruler in Egypt, is none other than Joseph, their brother. Then follows a most dramatic scene. So moving was the speech of Joseph that only a great effort was made by Joseph to restrain his emotions. The impressive official of a moment ago was the weeping brother now. The sons of Jacob, astonished at this sudden change in his behavior, were at a complete loss to understand it. As they had stood before him, listening as Joseph pleaded their case, they had searched his countenance for any sign of sympathy, but when the break came it was a shock. They had not supposed it possible for the Egyptian next to Pharaoh himself to shed tears or be moved to pity.

VERY DIFFERENT NOW

Robert Cleaver in 1600 A.D. wrote: But there are four reasons why the world has gone abroad. First, to come to holy meetings according to the duties of love and charity doth require. The third, for employment and provision in household affairs committed to her charge. And lastly, with her husband, when she shall require her."

OUR COMPLETE SHORT STORY—

Amateur Night

— By —
SETH BABITS

McClure Newspaper Syndicate

As the young colored couple left the Harlem theatre, Sam Jones strode Susan Frank's arm. They strode up the avenue, battling the icy wind that swept up loose papers and created eddies of dust. Susan turned to Sam. "They sure were awful tonight, weren't they?" she asked in a voice softly husky. "Real amateurs."

"Oh, they're all right," Sam allowed generously. "Some got some powerful voices. Like that girl who won the first prize. I could hear her if I was clean up Lenox Avenue."

"Yeah, she was loud enough, but that wasn't singin'." It's sweetest that cunts," Susan added slyly. "There's more to singin' than yellin'. If she can sing, I'm Ethel Waters. I bet I could do much better."

Sam's second sense told him some great idea was germinating within Susan's brain. Having formerly visited the waters of Susan's ambitions with disastrous results Sam decided to avoid the shoals. But suddenly she said, "How'd you think I'd make out, Sam?"

Sam realized his peril. He immediately organized his forces to nip the bud of ambition. He remembered the time Susan had sung the Lindy Hop contest with the most distressing results. "Not so good," he countered wisely. "No, I guess you just wouldn't make much better."

Susan frowned. Her arm loosened within his. "You mean to tell me that singer who won tonight is got a better voice than mine?" she said defiantly. "So you don't think I got a voice?"

"Lissen. I ain't sayin' you ain't got sounds," Sam said.

"You ain't got tones er-er-er that's passifional enough," he smiled at her breathily.

"Zat so?"

"What I mean is er-er."

"Well, if you ain't the heaviest, Samuel Jones. I got a voice and I know it. I can sing twice as good as anyone on that program. My pappy used to say, 'An' just to show you, I'm goin' to sign up for nex' week.'"

This, decided Sam, had gone just far enough. The moment had come when he must show his masculine supremacy. "Nothin' 'n' done," Susan. I won't have you do that. I'm your boy-friend and I got rights. I won't have you go up there to make a holy spectacle of yourself. You'd get the hell the first minute. Or you'd be razed to death by them guys up on the balcony. No girl friend 'n' mine is gonna do anything 'n' crazy-like."

"Holy spectacle! Crazy-like! You got your crust, big boy. From now on you can go get yourself some girl friend 'what's more sane.'"

Upon arriving at her home, Susan quickly ran up the stairs, never pausing, even to glance at Sam.

Although Sam, during the earlier part of the week, had felt that he could not go to watch Susan meet with fame or failure, he decided later that he would at least like to see her from across the footlights.

The theatre rocked and roared with the critical opinions of the audience. The first amateur, graciously allowed to go through his number, retired to a seat behind the screen to await

the final hour of judgment. Later, by means of applause, the winner of the contest would be chosen.

Amateur Number Two sang exactly four lines of Mother Macchree when her efforts at vocalization were rudely interrupted. A carefully aimed head of cabbage just missed her left ear and landed with a pounce upon the floor of the stage.

With much formality the Master of Ceremonies introduced Amateur Number Three. But his efforts at entertainment also met with disapproval.

Noisily the house settled back upon its haunches in preparation for the next victim.

Little pin pricks crawled up and down Sam's spine as the M.C. addressed to the microphone, guiding Susan by the hand. "And next—next, ladies and gentlemen, we have the pleasure of hearing from Miss Susan Frank."

Susan gripped the rod of the microphone with her right hand and stared out at the sea of faces. The orchestra struck a chord. Susan's voice, husky and devout, sang out. "My Lord, What A Morning!"

Then occurred a curious reaction on the part of the listeners. A hush of surprise at the type of song Susan had chosen swept over the hitherto clamoring audience like a tidal wave of silence.

From somewhere up in the gallery a voice rose in holy fervor. "Hallelujah, hallelujah!" Another intoned, "Laud, Laud, Laud, step aside for his chile." "Hallelujah." Gradually, the entire gallery took up the strain of responses.

Sam's heart skipped a beat. Susan was smiling, and at him. A smile of forgiveness, beautiful in its glory. The song was over. The last hallelujah had been softly pronounced. A hush had fallen upon the theatre. The M.C. advanced to the mike. He began walking quickly off the stage. Then he began to cry.

A rising cadence of handclapping, whistling and foot stamping filled the theatre. The M.C. walked backstage to get Susan.

One of the performers told him she had run out of the theatre, crying.

Sam, leaving, felt someone touch his shoulder. He turned to behold Susan beckoning to him. Warmth filled his heart. He stepped forward, intoxicated at the joy of being together again.

As they turned the corner Susan gripped Sam's arm tighter and pulled him closer. "I guess I was a holy spectacle, eh, hon?" she said, her voice softly husky.

New Appraisal

John S. Knight Cables The Chicago Daily News From Tokyo

Since we have elected to keep the Emperor on the throne I think Gen. MacArthur should have a heart-to-heart talk with his celestial majesty about the standards of sanitation we shall require so long as a single American soldier, sailor or marine is stationed in Japan.

Outwardly there is every sign of co-operation. There is no looting or mob rule in Tokyo.

The word of the Emperor is supreme and these pint-sized hissing killers bow to his will.

In my humble judgment, however, the long-range situation in Japan can be kept in hand only so long as we maintain an iron-fist policy tempered with equity and justice. Don't catalogue the Japanese as quaint picturesque little folk who dwell in an atmosphere of beautiful cherry blossoms and silk enclaves.

I have seen too much filth, smelled more than my share of that peculiar dead cat odor and looked into too many cold, hard eyes ever to believe that pretty fairy tale again.

CHRISTMAS TREE LIGHTS

Fluorescent Christmas tree lights in varied colors will make their bow this holiday season. Bigger than ordinary tree lights, the new bulbs are round and are designed to fit standard incandescent Christmas lighting strings. White when unlighted, they take on pastel tones when illuminated.

The also plant, used today for treatment of X-ray burns, was once used for its medicinal properties by American Indians.

BY JIM GREENBLAT

Interesting bits: When the Duke of Windsor was recently on a fishing trip in waters of the Restigouche (N.B.) Salmon Club he took away with him something he wanted badly, the battered old Stetson hat of Indian guide Frank P. Isaac were more it 20 years; the Duke replaced it with a new one. . . Premier J. W. Jones of P.E.I. is proud owner of the Holstein, Abegweit Milady, which recently broke the world record for butterfat production in the 305 day class. . . The 18-month daughter of Ellen Campbell's, Craik, Sask., wandered away lightly clad, and was found by a Mountie led party 24 hours later in a dry slough bed miles away, and is recovering. . . George Batley, Wellington, Ont., district farmer, claims to have won with a threshing 650 bush of wheat from an eleven-acre field; so heavy binders couldn't shave the grain. . . Claude Running, Clarksonburg, Ont., farmer and his horses lost a battle with bees in the orchard. . . The bees were in the ensuing melee, Mr. Running got serious cuts to his legs from the mower. . . Rosetown (Sask.) high school claims a remarkable record for exam results with 100% pass in grade 12 and 98% in grade 11.

Unusual phenomenon at Kelowna, B.C., one after when millions of butterflies flying in a cloud mass travelling northward; they were all black with touches of red, and just like a plague of locusts.

◆ If you like blueberry pie, here's something about the luscious fruit as harvested in Canada. For instance, in the Lake St. John district of Quebec, August weeks are terribly hard on folks, four or five weeks in all being important for the perishable crops. In 1943 blueberries brought a return of \$1,300,000 and in 1944 a total of \$650,000. Men prepare the boxes in which berries are shipped in even each box holds 22½ lbs. and a good picker can fill one in 1½ hours. Most pickers work about eight hours daily, live in tents pitched where wild berries are most plentiful and once a locality is established a picker seldom moves. Best yields of the wild fruit come second and third year after the area has been cleared. After the prevailing price of \$5 a box, the crop plentiful, prospects were good.

◆ The town of Vegreville, Alta., opened a new 40,000-gallon swimming pool with appropriate ceremonies. These responsible in this segment are moved to Calgary, Canadian. The project has been in the making twenty years and the pool is part of a \$500,000 park project.

◆ The Lindsay, Ont., Watchman-Ward comes to bat for community bands, saying they help to maintain higher standards of music, develop young boys and men, influences them in seeking better associations. Take away the band from a community and it suffers accordingly, the editor ends up a fine editorial.

◆ The Midland Free Press takes the stand that the government should keep men and women in the forces on the public payroll until it is possible to discharge them into jobs. To bring them home from overseas and let them loose in a jobless Canada would be leaving serious trouble for the writer contends, and adds that when full post-war employment was promised, it should now be pulled out of the bag.

◆ The Melfort (Sask.) Journal quotes: "Today the farmers are on the verge of a great renaissance. We are beginning to realize that we have a calling and that this calling is to hold the land as a precious trust in order that it will feed the generation of today and future generations yet unborn."

◆ Editorial quickies: The Dufferin Leader at Carman, Man., thinks the large take-away purchase of liquor permitted now encourages immorality and much illegal drinking in donuts, at public dances, particularly in the rural areas. . . The Coburg, Ont., Sentinel Star writing of the 9th Victory Loan says if Canadians subscribe generously it will also be an admirable way of saving thank you to those who gave so much that democracy might continue to flourish. . . Morden, Man., Times says: "A town is as live as its board of trade; a board as live as the individual members. When you ask: 'Is our town up and doing?' Ask yourself first."

YOUTH BEING TRAINED

The Moscow radio announced that Russia would conscript 445,000 boys and girls between the ages of 14 and 18 for training in industrial and rural schools. The broadcast said this was the first such conscription after the war and the Government attached special importance to it because "skilled workers are needed in still greater number."

IMPORTANT PORT

Singapore Is The Richest Centre In The Far East

Singapore, "The crossroads of the East," is the richest centre and most important port in the Far East. It lies on the principal trade route from Europe to the Far East and astride the shortest route to the South China Sea and to the Indian ocean. It handles a large volume of the trade to India, China, Japan, Australia, the United States, the United Kingdom, and Europe, and has developed extensively as the principal shipping and transshipment port for the Malay Peninsula, Siam, French Indo-China, British Borneo, and much of the Netherlands East Indies. In peacetime it is a port of call for all important shipping lines trading between Europe and the Far East, with frequent regular sailings by all classes of ocean-going ships to and from Europe, China and Japan, and to a lesser degree Australia and America. It has frequent regular services of small ships of the coastal type to the ports of Malaya, the Netherlands East Indies, Borneo, Siam and neighboring countries. Work on the great modern naval base, begun in 1924, was completed in 1938.

The ancient city on Singapore island was destroyed by the Javanese, about 1365. The island remained waste until the present settlement was founded in 1819 by Sir Stamford Raffles, who leased the site on behalf of the East India company from the Sultan of Johore, by whom the entire island was ceded to the British by the treaty of 1824. Sir Stamford Raffles, influenced by old histories, chose the natural core to which he foresaw trade would flow from all corners of the world. And promised in 1820 that Singapore should become the pride of the East. The population, about a hundred and fifty years ago, has grown to over half a million. The development of Singapore has been due to British administration, financed by British and Asiatic capital.

Up to the surrender to the Japanese in February, 1942, Singapore was a free port. There were no port, harbor, dock town or light dues charged. The customs duties for excise were on opium, alcoholic liquors, tobacco and petroleum only. Its trade in normal times consists of the importation of cottons, cigarettes, machinery, milk, provisions, hardware and other manufactured goods from Europe, America, India and the Far East, and the exportation in the Malay States, Borneo, Sumatra and other parts of the Malay archipelago; also the collecting of general tropical produce from these countries and reshipping to the rest of the world. The two sides of its trade are complementary. The produce pays for the manufactured goods and the machinery of collection is closely interlocked with the rest of the world. There is also a large import and export trade in rice, sugar and petroleum.

All classes of vessels can approach the port at any state of the tide. Plans were ready at the outbreak of war to improve the wharfage to nearly three miles.

The Singapore Harbour Board provided a large storage capacity. There were extensive oil fuel storage and fuelling equipment and repair facilities. The Singapore Harbour Board reports that during the year ended June, 1938, a total of 3,231 vessels, with a total net registered tonnage of 9,756,410 tons, berthed at the wharves; a total of 1,807,444 tons of outward cargo and 1,576,559 tons of inward cargo were dealt with.

The urgent need now is to rehabilitate Singapore at the earliest possible moment to supply the armies in Malaya, repatriate large numbers of Allied prisoners of war and to serve as a shipping centre for rubber, tin and other commodities. The appointment of a British naval commander is expected shortly.

Coastal Defence

How Radar Played An Important Role In Canada

Secrets of Canada's effort in development and production of radar equipment which have been released lately include one small hand-made radar instrument, which in one winter saved Canada more money than years of radar research cost the National Research Council.

This small coastal defence radar unit was made in the summer of 1941 to guide the firing of coastal batteries at Halifax. The set did not "see" an enemy ship near Halifax harbor throughout the war—but it did locate in fog and darkness many vessels which were in danger of running aground and which were promptly directed by radio into safer channels.

OCEAN FLIGHTS

Public interest in the post-war possibilities of the present Trans-Atlantic air service continues to grow, according to W. J. Dabry, Trans-Canada Airlines traffic manager. "The number of requests held by Trans-Canada Air Lines traffic offices for trans-Atlantic passage has now increased to over one thousand."

Earliest writings about soy-beans go back to the time the pyramids of Egypt were being built.

Cases Of Valuable Securities Stored In Canada During War

More than 1,000 heavily guarded cases containing millions of pounds in British securities which had been sent to Canada in 1940 for safekeeping were loaded at Montreal aboard the British light cruiser H.M.S. Leander recently.

Harbor police stopped all traffic along the waterfront where the ship was lying at an East End dock, and passes were necessary to get into the marked-off area. Newspapers were among those refused permission to approach the ship, with naval authorities saying that the movement was of a "confidential nature."

A large shipment of gold which came in 1940 also went to the Canadian Mint and to Fort Knox, Tenn. for storage.

The millions of pounds in securities were stored in a specially built vault in the Sun Life Building, Montreal, during the war. The vault was 50 feet below street level and was guarded by Royal Canadian Mounted Police officers.

Serve Another Purpose

British People Will Use Articles Made From Barrage Balloons

The first pre-fabricated aluminum houses have appeared in the city of Bristol, England. These houses took three and a half hours to erect and during that time, water, gas and electricity were laid on. "We took rather a long time," remarked the foreman. "With a little experience we shall be able to put them up more quickly."

Many hundreds of barrage balloons, used in the defence of London and other cities in Britain, have been placed by the British Government at the disposal of industry. Raincoats, rubber aprons and various household goods are now being manufactured from the "demobilized elephants," which have been protecting vital targets from Nazi bombers.

World's Largest Ship

As Troop Carrier The Queen Elizabeth Has Become Memorable

The two-funnelled Queen Elizabeth, the world's largest ship, has fourteen decks and is 1,031 feet in length. She was built in the John Brown shipyard, Clydebank, and had there not been a war she would have joined her companion ship, the Queen Mary, in the north Atlantic passenger service. In February of 1940 the Elizabeth, escorted by six tugs, left the fitting-out basin and proceeded down the Clyde and shortly afterward sailed for New York, arriving on March 7. Her troop-carrying missions have since become memorable.

Laid end to end, 250,000 of the smallest bacteria would measure only one inch.

This Week's Pattern

4759 9285 7-8

By ANNE ADAMS

She'll look sweet and pretty in this button-it-herself frock, Pattern 4759. Make one for school, one for parties, with panties to match. Pattern 4759 comes in children's sizes 2, 4, 6 and 8. Size 6, frock, requires 1½ yards 35-inch material; panties take ¾ yard.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Amy Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

Are Opening Again

Many Universities In Europe Were Closed During German Occupation

Europe's universities, most of which during the period of occupation were compulsorily closed down, are opening once again in H-land; the Catholic University of Nijmegen has already resumed work, and the Free University of Amsterdam has started to enrol students. A great rally of Czechoslovak students marked the re-opening of Prague and Brno; and four Italian universities are due to open again in the near future.—Ottawa Citizen.

SLOAN'S LINIMENT
FOR FASTER RELIEF

WHEN MEAT IS SHORT—MAKE A PIE!—When meat is short and appetites are large, there's nothing better than a Meat Pie! This Beefsteak Pie helps two pounds of beef to stretch around a table of six—with generous helpings for all. And every hot, delicious bite has the full flavor of beef, topped with a crisp nutlike bean pastry.

Beef Steak Pie

2 pounds round steak (cut in 1-inch cubes)
1½ cups sliced onions
1 cup fat
2 teaspoons salt
1 teaspoon pepper
Lightly brown steak and onions in fat. Stir in seasonings, parsley and sour mix well. Add water slowly, stirring constantly. Add potatoes; cover and simmer about 30 minutes. Pour into greased casserole. Cover with Bran Pastry. Prick with fork to show wedge-shaped pieces. Bake in hot oven (450 degrees F.) about 20 minutes. Yield: 6 servings (8½-inch casserole).

Bran Pastry

1 cup bran
1½ cups sifted flour
4 tablespoons cold water (more or less)
Crush bran into fine crumbs; combine with flour and salt. Cut in shortening with a butter knife, a little at a time, until dough is moist enough to hold together. Roll out on lightly floured board to about ¼ inch in thickness.

Here's a SENSIBLE way to relieve MONTHLY FEMALE MISERY

Lydia E. Pinkham's Vegetable Compound not only relieves monthly pain, but also accompanying nervous, tired, high-strung feelings—when due to functional periodic disturbances. It's one of the most effective medicines for this purpose. Pinkham's Compound helps nature! Follow label directions. Try it!

Theatre Notes

NEW COMEDY TEAM EMERGE FROM PARAMOUNT LAUGH HIT

Best-seller "Our Hearts Were Young and Gay," which made twenty million readers howl with laughter, is the record of a famous jaunt made by two 19-year-old belles who crossed the Atlantic to find something romantic. Paramount's screen version, which opens Tuesday at the Palace theatre, is full of the hilarity of the original script, and presents in the starring roles a comedy team that is excruciatingly implausible, that of Gail Russell and Diana Lynn.

Gail will be remembered as the beautiful but haunted heroine in "The Uninvited," which starred Ray Milland, Ruth Hussey and Cornelia Otis Skinner. Diana Lynn was Betty Hutton's brattish young sister in the Preston Sturges-Eddie Bracken comedy sensation, "The Miracle of Morgan's Creek." In "Our Hearts Were Young and Gay" they are starred as a comedy team that's terrific!

The second feature on Tuesday and Wednesday is "Dangerous Passage," starring Robert Lowery and Phyllis Brooks. Two fugitives from destiny... headed for death and destruction... share love and danger on a mysterious murder ship crossing terror swept seas.

RIOTOUS HIT

Full of bright comedy and high-lit with music, "Greenwich Village" recreates the gay and dramatic intimacies of the village's human cross-section, providing a realistic and nostalgic slice of one of the most colorful eras of modern times.

Its cast is staffed with a galaxy of stellar artists including Carmen Miranda, Don Ameche, William Bendix, Vivian Blaine, Tony and Sally De Marco, The Revuers, and a host of others.

Filmed in technicolor by 20th Century-Fox, "Greenwich Village" opens tonight at the Palace theatre, and introduces three new hit tunes by Leo Robin and Nacio Herb Brown. They are: "It Goes to Your Feet," "Give Me a Band and a Bandana" and "It's All For Art's Sake."

CORRECTION

The Journal was incorrect in its report in respect to Lewis Brown last week. Lewis' rank is that of Trooper and he spent three and a half years in England on duty and was not on the continent.

RATIONED MEAT IN LOCKERS

must be declared

All consumers who store rationed meat in lockers must declare in writing to the nearest Ration Branch Office the quantity of rationed meat they had in storage on September 10, 1945

Rationed meats include all cooked, canned, fancy and "red" meats. For a full list of rationed meats, see the Consumer Meat Coupon Value Chart. Copies are available at all Ration Branch Offices.

COUPONS MUST BE SURRENDERED FOR STORED MEAT

Consumers must surrender coupons for all meat held in lockers over and above 4 lbs. for each person in the household at a rate of 2 lbs. per coupon. However, no more than one-half of the "M" coupons in the ration books of the consumer and his household need be surrendered.

USE THIS DECLARATION FORM

R.B. 218 **RATION ADMINISTRATION—WARTIME PRICES AND TRADE BOARD**
CONSUMER'S STATEMENT OF MEAT HELD IN COMMERCIAL COLD STORAGE, TO BE FILED WITH THE RATION BRANCH WITHIN 30 DAYS OF THE START OF MEAT RATIONING

Another policy- holder reports...

"I AM a policyholder in The Mutual Life of Canada, an average man with the average man's

problems. I know what people mean when they talk of stretching the dollars to meet all the needs. That is the reason why I decided to insure in the first place. I knew that it was unfair for me to go on making plans for the future with my family and doing nothing to guarantee their fulfillment if I should not be here. It was then that I realized that the only practical solution was life insurance.

"I DISCUSSED my needs with a Mutual Life representative and as a result I purchased Ordinary Life insurance.

"THE AMOUNT I pay remains the same each year.

I share in the Company's earnings and my protection remains in force as long as I live. But I also have the option of using the cash value of the policy to provide a retirement income at any time

I choose. What I shall do will depend upon my circumstances, but it gives me a great sense of security to know that I own this insurance with its constantly increasing values."

Let a Mutual Life representative help you select a policy adapted to your particular circumstances!

Pass Butchers Threaten Strike Sept. 24

Miners' Union Endorses Butchers' Stand

On Thursday last butchers in all Pass towns met in the Legion club, Blairmore, to discuss the meat rationing problem. Ben Hobson, of Blairmore, was chairman.

The following resolution was endorsed by those present and forwarded to Ottawa:

"Resolved that all assembled at this meeting are opposed to the present system of rationing due to the fact that the supply of weekly meat allowed to the miners is much too small in proportion to the supply of meat in the country.

"In the event of no action being taken by the government by the 24th of September, 1945, we, the butchers of the Crows' Nest Pass, will discontinue the sale of meats."

A survey of butcher shops here on Wednesday morning revealed that only one is apparently selling any quantity of meat and taking what coupons he can get. The other

butchers are adhering as closely as possible to the regulations. One butcher is adhering strictly to the regulations in regard to steaks and cold meats, others are selling only cold meats without coupons, while another is selling hamburger without coupons in order that it be sold before it is kept too long and thus go to waste.

At the miners' meeting on Sunday last the following resolution was carried and authorized sent to Donald Gordon, chairman of the Wartime Prices and Trade Board. It reads:

"At a mass meeting of Coleman coal miners the question of meat rationing was discussed and it was

unanimously resolved that we, the miners, fully endorse action taken by the Butcher, Retail Merchants on their stand against meat rationing."

Angus Morrison, secretary of District 18 U.M.W.A., who is at present in the East, has already been in conference with government officials at Ottawa in regard to meat rationing as it affects coal miners.

Pending favorable settlement of meat rationing at Wednesday's meeting at Ottawa between the Wartime Prices and Trade Board and the Canadian Retail Merchants' Association the meat stores of the Pass will in all probability be closed.

MEN FROM THE ARMED FORCES FOR FARMING

Any personnel in the Armed Services, wishing to be released for farm work at any period of the year, should now be advised to:-

- Apply to their Commanding Officer for release for farm work, stating past farm experience, giving reasons for request.
- Give location, type and size of farm, wherever possible.
- If possible, submit a letter from a parent or former farm employer and a letter from municipal or other official in home locality, indicating need for services.

Agricultural Labour Survey Committees have been set up by the Federal Department of Labour, to co-operate with the Armed Services in the release of men for farm work.

These Committees represent the Provincial Department of Agriculture, the Armed Services and the National Employment Service. They are prepared to advise farmers or Service personnel on any problems concerning such releases. For further information write your Agricultural Labour Survey Committee, care of Mobilization Registrar, at Charlottetown, Halifax, St. John, Quebec, Montreal, Kingston, Toronto, London, Port Arthur, Winnipeg, Regina, Edmonton, or Vancouver.

DEPARTMENT OF LABOUR

HUMPHREY MITCHELL,
Minister of Labour

A. MacNAMARA,
Deputy Minister

Canadians are lucky. So far we've prevented inflation and avoided deflation.

It's not been just good luck.

Your support—everybody's support—of price ceilings, rationing and other controls alone has made it possible.

BUT NOW COMES THE REAL TESTING TIME.

The danger of inflation and its black shadow, deflation, will last as long as goods are scarce and insufficient to meet demands.

With the war over and plenty of money in our pockets it's easy to overlook the danger.

It's easy to think that paying just a little more to get something we want is unimportant now.

It's easy to think that what you do can't hurt—and to forget that careless, extravagant buying is a sure way to help a general rise in prices.

That's how inflation gets going.

BUT INFLATION IS ALWAYS FOLLOWED BY DEFLATION.

And deflation brings cancelled orders, bankrupt businesses, mortgage foreclosures, unemployment and distress—distress you can't avoid.

Until industry gets back to normal, price ceilings, rationing and other controls are our safeguard.

SO—Keep on watching your buying. Don't rush to buy scarce goods.

Keep on saving your money. Put it into Victory bonds and War Savings certificates.

Keep on supporting wage and price controls, and rationing. Keep on fighting inflation and its black shadow... deflation.

This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation and unemployment later.

WE HAVE NOW ENTERED what has long been referred to as the "post-war period", and there has been a great deal of speculation as to what would take place in the years following the declarations of peace. Some have feared mass unemployment, business depression and similar disasters. Others have anticipated a new era in which the scientific, mechanical and medical discoveries made during the war would revolutionize our daily lives. Whatever may have been their outlook on these matters, however, the one great hope has been shared by freedom-loving people everywhere: that the way might be found to make this peace a permanent one. When the atom bomb was introduced into the warfare of the last decade, the Japanese resistance, this hope increased many fold, as it became apparent that the use of this weapon in any future war would mean to the entire civilized world.

nations will have it within a period of five years. It is known that Germany had very nearly come upon a means of splitting the atom at the time of her collapse, and there is no reason to believe that other scientists may not be successful in such a discovery at any time. It is also possible that at some time, a substance more accessible and more plentiful than uranium might be found for this purpose. Although there appears to be many possibilities for the use of this great discovery for the benefit of mankind in time of peace, its threat as a weapon of war cannot for a moment be forgotten, and it makes more urgent than ever, the need for some means of keeping the world at peace.

were the means of ending a war which otherwise would have lasted for months, or perhaps years, and would have cost many times the lives destroyed by these bombs. The dropping of those bombs, however, may in the future be looked upon as a turning point in history. General Douglas MacArthur in his speech on the occasion of the signing of the Japanese surrender expressed the thought that if we are to survive it will be necessary for the spirit to preserve the flesh. Certainly it is more urgent now than ever before that at least the majority of nations find a way of working together in mutual trust and co-operation and of preventing the occurrence of another war, whose horrors cannot easily be imagined.

CHAMP

IT SOFTENS
THE HARDEST
WATER

High octane gasoline is not a single product, but the blend of a base stock with high quality synthetic hydrocarbons and tetra-ethyl lead.

Her late owners, the Union Steamships Ltd., of Vancouver, who operated the ship under the name of the S.S. Camosun, recently reported she was bought by the Oriental Navigation Company, of Tel Aviv, Palestine. The vessel will now sail among the islands and coast ports of Palestine and the Mediterranean. The ship was built at Glasgow, Scotland, in 1912.

POSTUM

the completion of which she was reported to the Director of State Duties (Weapons), Ottawa, with rank of Sergeant. "Besides finding my work interesting, Ottawa is very attractive place in which to work," Sgt. Parker continued.

member of the Legion, for as far as the Legion is concerned, members of the CWAC are service men, too. So, if she's "a person of good character, who has seen active service in any of His Majesty's forces," she'll be most welcome. Up until the present time, the number of women who could belong to the Legion has been small, as Nursing Sisters were the only active members in World War I. But when the women's services in this war are all disbanded, the Legion looks forward to a large number of girls becoming members. They'll launch their rights to place with the rest of the veterans. There's a job, too, for women in the Legion. A problem's home and family are a woman's sphere, they will be able to assist in the solution of such problems. Ex-service women will give a lash of the Legion, or if there isn't enough of the Legion, they can't make it. They can't get together and form a branch of their own. Whether they are members or not, the Legion lends a helping hand to discharged service women. If a woman is discharged, and if women could be present at the meetings as a member, so that they would be able to give their ideas in their own way and work them out for themselves. Besides all this, the old veterans feel it will add to the Legion's prestige to have a few girls within their ranks. Women in the Legion will definitely be a good influence.

and Romans.

If you suffer agonizing torture from sore, painful, itching piles, here is a chance to try a simple, home treatment with the promise of a reliable firm to refund the cost if you are not satisfied with the results.

Simply get a bottle of Hem-Roid from any drugist. This is an internal treatment whose medication is directed to the removal of the cause of hemorrhoids. Hem-Roid is a small, white, round tablet. Hem-Roid is a small, white, round tablet, easy and pleasant to take. The results are quickly shown. Itching and soreness are relieved, pain subsides and as the treatment is continued the swelling and inflammation are reduced and the sore, painful protrusion of the over, itching, the rectum membrane is clear and healthy. Get a bottle of Hem-Roid today and see for yourself what an easy pleasant way this is to rid yourself

Any ex-CWAC, providing she provides the necessary service, may become

the necessary service, may become

STORY IS TOLD OF PRISON CAMP NORTH OF TOKYO WHERE MANY PRISONERS DIED

MANILA.—One of the toughest prison camps in which Canadians were held in Japan was at Niigata, a city of 1,000,000 population some 150 miles north of Tokyo, where starving prisoners performed hard labor under clubbings in coal yards, warehouses and a foundry.

There were 250 Canadians there and 89 of them died of pneumonia, beriberi and dysentery during their stay there from September, 1943, until they were liberated. The prisoners were undernourished and without medical supplies.

Edwin Priard, with the Royal Rifles of Canada, said "at Niigata, Japan, during our twenty-four month stay, we lost eighty-three out of 300 Canadians in the first eight months."

During the winter it was bitterly cold and the camp was swept by great snowstorms, one of which made it necessary to move from one barracks to another through snow tunnels. During one period storms tied up railway traffic and the camp was isolated for three weeks. Practically until the moment they were freed most of the prisoners believed they would spend their last days in Niigata.

At various times the prisoners lost up to 60 pounds, some of which they made up by stealing food while on one warehouse job. When they were caught stealing the prisoners were clubbed until they couldn't walk.

Private Leonard Mulvaney of Winnipeg saw an American prisoner clubbed to death in February, 1944, and a Canadian was forced to stand outside the guardhouse for four days in freezing weather, wearing only his trousers and without shoes. He suffered severe frostbites and died later.

The Canadians were taken to the camp from Osaka just two years ago. They were addressed upon arrival for work by a stringy, bearded Japanese who seemed to have charge of all prisoner labor in the Niigata area. He soon came to be known as "Bluebeard."

This is what "Bluebeard" told the prisoners in fairly good English: "You are my slaves. You are deserters of the Anglo-Saxon piracy that we are fighting today. You are here to work and you shall work until you die and be glad to."

"If you prove to be willing workers we will send you home when the war comes to an end. That will be when the Americans on their hands and knees are begging for mercy. It will be the year 1950."

"You are sick in body and mind your hands belong to me."

RETURN OF TERRITORY

Emperor Haile Selassie Asks For Restoration Of Frontiers

LONDON.—The Swiss radio said that Emperor Haile Selassie has asked the United States, Great Britain, France and Russia to give Ethiopia the entire northeast African colony of Eritrea.

The broadcast said the emperor had reminded diplomatic representatives of the four countries that Ethiopia had been assured it would regain all its historic frontiers.

VOTES FOR THE POOR

OTTAWA.—Inmates of institutions for the poor would be qualified for voting at Dominion elections under an amendment to the Dominion Elections Act introduced in the commons by Robert Fair (S.C., Battle River). It would remove such persons from the list of classes disqualified from voting. The bill was given first reading.

MEMBERS OF JAPANESE CABINET CHARGED WITH STARTING WAR WILL BE TAKEN INTO CUSTODY

TOKYO.—Tightening the occupation grip on Japan, Gen. MacArthur ordered 40 important Japanese held for questioning and one of them, former Premier Hideki Tojo, promptly shot and wounded himself.

Ten members of the cabinet which helped the former dictator plunge Japan into the war with Britain and the United States were among the ranking personages ordered detained.

Steady expansion of the occupation zones continued. It was announced that two more landings would be made shortly. The United States 81st Infantry Division was scheduled to go ashore at Amori, Northern Honshu, about Sept. 23. A few days later the United States 7th Infantry Division and the 9th Corps headquarters will land at Otari, on Hokkaido, the northernmost home island.

Gen. MacArthur's directive ordering important Japanese political, army and navy figures into custody

KOREAN JAPS

Announcement Made They Have Been Dismissed From Office

SEOUL, Korea.—Lt.-Gen. John R. Hodge has announced the dismissal from office of Nobuyuki Abe, governor-general of this former Japanese possession.

The announcement was made by the general at a conference with about 1,000 delegates from 51 Korean groups, including 33 political or semi-political parties.

He also told the assembly of Koreans, many of whom had sharply criticized the continued use of Japanese functionaries, that he had removed Tadao Nishihori, director of the police bureau of the government general of Korea.

Maj.-Gen. A. V. Arnold, commander of the 7th Infantry Division, will take over Abe's functions, and the police director's duties will be assumed by Brig.-Gen. L. E. Schick, provost marshal general for the United States forces in Korea.

Both moves were hailed by the Koreans, who have charged that the Japanese have used their positions since the occupation to further Japanese interests at the expense of Koreans.

RESEARCH PROFESSOR

Will Go From Saskatchewan To University of Chicago

SASKATOON, Sask.—Professor Gerhard Herzberg, Ph.D., F.R.S.C., of the University of Saskatchewan, has been appointed professor of spectroscopy to the department of astronomy, University of Chicago.

Since 1935 research professor of physics, he will leave soon for Williams Bay, Wisconsin, where the Yerkes Observatory, headquarters for the astronomy department of the University of Chicago, is situated.

His work in spectroscopy will include further research into atomic and molecular structure.

Professor Herzberg received his doctor's degree from the Institute of Technology, Darmstadt, Germany, and took post-doctoral work at the University of Goettingen.

NO INCREASE SEEN

Stocks Do Not Warrant Larger Sugar Ration For Canada

OTTAWA.—Although considerable sugar producing territory in the southwest Pacific has been recovered by the Allies, no increase in the Canadian sugar ration is likely this year, prices board spokesmen said.

One official attributed this to the fact that it would take about two years before those territories could be brought back into normal sugar production. In addition, he said, more sugar is being shipped to the food-depleted countries of Europe than has been shipped since the outbreak of war.

ASK THEIR RETURN

Allied Council Wants Obnoxious Nazis Sent Back To Germany

BERLIN.—Neutral countries harboring "obnoxious" Germans will be asked by the Allied control council to return them to Germany, the council decided at its fifth meeting attended by Gen. Eisenhower, Field Marshal Montgomery, Lt.-Gen. Koenig, Marshal Zhukov and their aides. The governments of Afghanistan, Eire, Portugal, Spain, Sweden, Switzerland, Tangier and Vatican City will be asked to return the "obnoxious" Germans and their families.

EASY WAY OUT

SINGAPORE.—Three hundred Japanese officers at Singapore committed suicide with hand grenades when informed of the Japanese surrender. It has been reported.

LADY MARGARET ALEXANDER, wife of Canada's newly appointed governor-general, Field-Marshal Sir Harold Alexander, poses for this recent picture in her home, "The Vale", Windsor Forest, England. When the Alexanders take up residence in Ottawa next spring they'll live in Rideau Hall.

MAY RETURN VIA CANADA

OTTAWA.—It was reliably learned that arrangements are being made by the British high commissioner's office for transit through Canada for numbers of liberated British prisoners of war from the Far East.

CHALICE PRESENTED TO QUEBEC SHRINE.—Father Patrick Leblanc admires the chalice presented to the shrine of St. Anne de Beauséjour, by pilgrims accompanying Father James Cox from Pittsburgh. It was made from gold trinkets and adornments contributed by Father Cox's friends.

CANADIANS NOW RECEIVE MAIL FROM TOKYO.—While waiting their first cable or air-mailed letter from Canadian prisoners of war in Tokyo since freedom came to them, next-of-kin across Canada are today receiving mail dated as late as last March. For most it was the latest in a year or more. First to get such mail was Mrs. Irene Mason. She received two cards. "I could have fallen on the postman's neck, I was so overjoyed," she exclaimed. Her husband, Rm. Fred Mason, 25, R.R.C., wrote on his last card, "I am well. Hope to see you soon. Regards to my friends. Love." One was dated Jan. 2 and the other March 12 of this year.

TAX EXEMPTIONS

Some Changes In Income Tax Are Predicted

OTTAWA.—Raising of tax exemptions to \$500 for single persons and to \$1,500 for married people is expected to be announced by Finance Minister J. L. Isley when he presents the budget to parliament in October.

Several members of parliament said they had learned from good authority that these were the exemptions to be effected. Few thought they would go above that. Whatever reductions are planned will likely apply both to 1945 earnings and to taxes payable in 1946.

Mr. Isley to date has given no hint of what reductions are in prospect for Canadians. On several occasions he has said the lowering of taxes "may be a disappointment to some people." Reliable sources say the seven per cent. base tax will be eliminated in 1946 income.

Specific proposals regarding taxes have been made to Mr. Isley by the trades and labor congress and the Canadian congress of labor, one of these was to raise the exemption for single persons to \$1,000 and for married people to \$2,400.

KOREANS OBJECT

Protest Against Army Orders Leaving Japs Temporarily In Office

SEOUL, Korea.—Demonstrations broke out in this Korean capital in protest to United States army orders leaving temporarily in office Japanese overlords who have ruled the little empire for 35 years.

Gen. MacArthur in Tokyo told the Koreans in a proclamation that their rights would be protected, and that American troops were in southern Korea only "to enforce the instrument of surrender."

WASHINGTON.—Amazement was expressed by some officials here at the extent of authority left in the hands of Japanese administrative officials in Korea.

None was willing to be quoted by name, but their reaction was plain.

WILL BE DISPERSED

OTTAWA.—The First Canadian Parachute battalion, which returned to Canada in June after distinguishing itself in numerous offensive operations in northwest Europe, will be dispersed by Sept. 30, defence headquarters announced. It is now stationed at Niagara Camp, Ont.

WOULD APPOINT COMMITTEE TO STUDY APPLICATION OF THE SINGLE TRANSFERABLE VOTE

OTTAWA.—Senator John Haig, Progressive Conservative leader, advocated in the senate that a committee be appointed to study application of the single transferable vote system to Canadian elections.

His statement came shortly after Lt.-Col. J. A. Ross (P.C.-Souris) appeared in the commons for adoption of the transferable vote in federal elections. Col. Ross said about 150 members elected in the general election of June 11 were elected on a minority vote.

Resuming the debate on the throne Senator Haig, newly-elected opposition leader, quoted figures to show that 48 of Ontario's 82 members of parliament, 17 of Saskatchewan's 21 members and 15 of Manitoba's 17 members were elected by minority votes under the present system.

Manitoba had used the single transferable vote scheme since 1920 "and I have never heard a single objection."

The government would be compelled to consider its use, he said, and one of the main reasons was that we are going to be faced largely by three parties.

Under the system if the candidate with the highest total does not have an overall majority, then the second choice of those votes cast for the last candidate is added to the total of the higher candidates until such a majority is established.

Senator Haig said rental controls had resulted largely in disappearances of houses to rent. He criticized erection of government housing projects outside cities where "people will have to have cars to get to work."

"All these restrictions haven't built a single house in Manitoba, but they have stopped them being built." He recalled Finance Minister Isley's election campaign statement that taxes would be reduced and charged "taxes have got to be reduced" to bring relief first to "ordinary men and women" and then to others.

Canada's primary producers had to have "some guarantee of what the future" will hold. There was "no gamble in the world comparable to that of western farming."

He congratulated the government for its "fine war leadership," asserting "if they did things wrong they did it in the heat, not in the heart."

Whatever the government did to help Britain back on her feet "we have got to act sympathetically."

START LONG TRIP

Men From Japanese Prisons Will Soon Be In Canada

HONG KONG.—More than 300 Canadian prisoners of war sailed from Kowloon aboard the Empress of Australia on the first leg of the long voyage home.

Escorted by the Canadian anti-aircraft cruiser Prince Robert, the huge transport was scheduled to be off Camp Stanley in order to take aboard several hundred civilian internees and thence proceed to Manila where all intended repatriates will be placed in receiving centers for classification prior to boarding other ships bound for their respective countries. It is expected that all the Canadians will return to Canada together and within five weeks they should be with their families.

FOR WAR PRISONERS

Canadians Freed From Japanese-Held Territory Promised

Correct Dress

OTTAWA.—Canadian prisoners of war liberated from Japanese-held territory will arrive home correctly dressed and find back pay plus three per cent. interest credited to their accounts.

These facts were disclosed in a 12-page booklet issued by the inter-service committee on prisoners of war.

The booklet distributed to the men as they are released, explains that it may be necessary to issue uniforms of another service to some prisoners, but "these will be eventually exchanged so that you will be correctly dressed when you arrive home."

ELEVATOR BUSH

Grain Is Again Being Shipped Overseas From Victoria

VICTORIA.—Victoria's grain elevator, built in the booming twenties, long idle during depression years, is busy once again.

First big overseas shipment since the war—300,000 bushels to India—went out on the American freighter Sammo six weeks ago. It totalled 8,000 tons of bulk grain, and was the first shipment to any country save the United States since 1939.

HIGHEST DECORATION

WASHINGTON.—President Truman presented Gen. Jonathan Wainwright with the Congressional Medal of Honor, the United States highest decoration.

CANADIAN ARMY REPATRIATION WILL BE SPEEDED UP BETWEEN NOW AND END OF THE YEAR

BAD OEYNHAUSEN, Germany.—

It is now possible to provide a somewhat revised overall picture of Canadian army repatriation, even though two weeks with our troops in the Netherlands and northwest Germany emphasizes that the movement can't be too fast to suit most of our men.

The score of troops movement to and from Britain during the past six years reveals a prodigious effort on the part of Canada, with more troops returned to the Dominion in the past four months than made the eastward crossing in a whole year during hostilities.

Even so, the great urge is for a speed-up, and though there are slight rumors that the continent will be free of non-occupation personnel by the end of the year, that practically everybody with more than 60 points will be in Canada early in 1946, the official view is that repatriation may not be completed before June.

While this long view is apparently official, it is apparent that after considerable delay, there is now a faster pace. In July 1,000 men were moving daily from the continent to Britain, but the movement dropped to 400 during August. The rate has now been stepped up with less time expected in Britain before sailing for Canada.

During August, about 15,000 army personnel left for Canada, but this month, the total should reach 20,000, and such troops as veterans of the R.C.H.A. and the Saskatchewan Light Infantry may get home by the end of October.

Here is the record of army troops' arrivals in Britain since the war began: 1939—15,925; 1940—42,667; 1941—70,144; 1942—63,500; 1943—79,512; 1944—64,868; 1945 to April 30th—31,121, making, in all, a total of 367,770.

Fatal casualties in Europe to April 30th were: in the Mediterranean, 5,662; in northwest Europe, 10,733; in the United Kingdom, 2,599.

Up to that date 467 soldiers had been removed from the continent in Britain, none elsewhere in Europe, and 241 men were civilian prisoners on this side. But before hostilities had ended, more than 65,000 soldiers had been returned to Canada; 49,988 of them for low category reasons and 27,704 for other reasons. Transfers to Allied forces were 724.

That means that at the time hostilities ended, April 30th, to be exact, there remained on strength of the Canadian army overseas, a total of 282,829 of all ranks; 3,190 in the Mediterranean, 184,759 in northwest Europe and 94,880 in the United Kingdom.
